June 1, 2020

Greetings, Members of PROBUS CANADA,

While we continue to respect our Federal, Provincial, and Municipal guidelines, we are also cognizant of the various organizations, associations, and companies that have been thanking our first responders, essential services, and all the selfless individuals that put themselves on the front line so that we can be safe.

Your Board of Directors of PROBUS CANADA has decided that we would also like to acknowledge the tremendous contribution and lack of selfishness by these workers.

On June 6, 2020 we have placed notification of our thanks in the first section of the Globe and Mail which is circulated nationally across Canada.

After the issue is published our notification will be posted on our web site www.probus.org and our Directors will be forwarding same to all Clubs. In doing so your Club Newsletter Editor will be able to forward a copy to you and also include it in your Club newsletter.

This initiative was prompted by Russ Caple of the PROBUS Club of Whitby/Brooklin, Ontario and we thank him for his efforts.

Further to our note last week, your Board of Directors and support staff wish you the best of health and please stay safe.

Yours in PROBUS,

Jamie Doolittle
President PROBUS CANADA
